Pupil's Choice Of High School Controls - If Parents Agree

"Paragraph 1965-41X provides — however, sub-paragraph US 23-16 limits the provisions herein, except as specified in ICU Part 123" and on ad infinitum, if you attempt to interpret the "Revised Statement of Policies for School Desegregation Plans, Under Title VI of the Civil Rights Act of 1964," as reproduced in this HERALD on page two,

You should read these and if you fail to interpret them to your satisfaction, then a session with your school Principal should be had.

As interpreted to us by a student of the prevailing instructions, the facts are: (1) Every student who is exercising a choice for the ninth or higher grade, OR has reached the age of fifteen at the time of the exercise of choice, MUST annually make a choice of

which school is preferable, and this choice controls, UNLESS Maw and Paw think differently; in which case the parents choice rules. (2) There is a choice period — April 1st to April 30th, this year — BUT the student may make a choice up until one week after school has begun. However these late-comers must take "pot luck" AFTER those who made choices know

within the choice period. (3) In the absence of an expressed choice, a student "must be assigned to the school nearest his home where space is available," within one week following opening.

(4) On first day of choice period — by first class mail, a letter, an explanatory notice, and a choice form, together with a return envelope to the Superintendent.

Red Cross Drive Now In Full Swing

The American Red Cross Drive is underway in the Glades with concentrated effort by volunteer workers locally to bring the drive to a successful conclusion by Saturday, April 16, general chairman Ray Alston announced.

More neighborhood volunteers are needed, Alston urged.

Coinciding as it does with the Easter season, the Belle Glade Ministerial Association will urge church members at the Good Friday community-wide meeting to give generously in support of this worthy cause.

The National quota is up 10% this year due to the war in Viet Nam.

Foribly brought home this week was the need for additional funds in our own state when hundreds were left homeless and an under-termined number of deaths occurred from tornadoes that cut a wide swath thru the central area from coast to coast. News media reported The Red Cross immediately on duty.

"The Glades area has always taken much more than we've put in," chairman Alston reminded. "It's a record we'd like to correct... move up to carry our own weight," he emphasized.

Services of 2,000,000 American Red Cross volunteers are given annually to help meet vital health and welfare needs. Whenever and wherever disaster strikes.

The Red Cross will be found among the first on the job doing whatever can be done to relieve suffering and hardship. Services to the Armed Forces, to Veterans, Nursing Services, Blood Program, First Aid Services, Water Safety Services and Small Craft Safety Services are but part of its programs and duties.

A kickoff breakfast was held Monday morning at the Dixiana with workers finalizing for the local drive. Meeting with Palm Beach Chapter executives Carolyn Blith and Fred Yount were general chairman Ray Alston; Joe Leavitt, vice-chairman; Dr. R. V. Allison, coordinator; Milton Carpenter, neighborhood chairman; Roger Cunningham, packing-house area chairman. Attending in advisory capacity were Luther Jones and last year's chairman, George Young.

Beverly Kay Steele was crowned Harvest Queen with the best wishes of one of the largest audiences ever to attend a Coronation Ceremony last Saturday evening, in the Belle Glade High School Auditorium.

An Miss Faye Hais, Harvest Queen of last year, placed the symbolic crown on Queen Beverly, the lovely new queen accepted the cheers of the multitude in true regal style and promised that her reign over Glades Harvests would be in the best traditions of royalty.

All five members of the judging team were unanimous in their selection of Queen Beverly, but did admit that with so many Glades beauties competing their job was a difficult one. Beverly's Court will consist of Susan Kay Rymes, first runner-up of Belle Glade, and Jessie Ann Sheffield, second runner-up of Pahokee. Queen Beverly is from Belle Glade, where her father, Rose Steele, is a building contractor, and resides at 901 S. E. 3rd St.

Winner of the talent competition was Josephine Young of Pahokee, and second runner-up to Miss Young was Tammy Branch. This is competing in the Miss Palm Beach County Pageant April 17 and 18. Miss Congeniality was vivacious Sandra Jean Pearce, who was given this honor by the other Harvest Queen contestants.

The crowning of Queen Beverly will be on TV April 14th, from 8:30 to 9:30 PM, Channel 5, West Palm Beach. The hour-long TV appearance will confirm for all Glades viewers that the judges were right in selecting Queen Beverly Harvest Queen, the Queen who will represent the

Policemen's Fair Was Fun For The Kids

The Belle Glade Police Benevolent Association scored another successful Children's Fair Tuesday, and probably had more kids out than in past Fairs in spite of windy and rainy weather.

Big feature of the Fair was "Jewel," an elephant aged 20, but the patience of many more years. Jewel furnished rides for the children, and gave every indication of pleasure at being the center of attraction.

There were carnival rides and a real live camel competed with Jewel for attention. Camels are not noted for patience or a loving disposition, but this camel did do a good job towing a sightseeing car around the grounds.

According to Det. Frank Fogelman, proceeds from the Fair will be used to help defray the cost of insurance for police officers. Det. Fogelman is president of the association, and was busy Wednesday supervising the chore of cleaning up the athletic field of the Belle Glade Junior High School where the Fair took place.

"Beautification Of Belle Glade Begins At Home"

Emphasis is placed on residential area beautification as Belle Glade's Beautification Committee stresses this phase of the program with a new slogan sign placed in the center of our city opposite the Chamber of Commerce Building.

"We hope all our fine citizens have noticed the new slogan," Beautification chairman Donald Fieles said. "Our aim is to call attention to the fact that much can be done to beautify a community by beginning in our own back yard — and our front yard as well, of course."

"A beautiful residential area is very important to our town," he continued. "When it seems that you just can't think of a thing to do to help beautify your home town, take a look about your own premises."

Beauty can be all around us, the committee reminds, and each and every one of us can begin by a bit of home landscaping and other home improvement projects. A bit of paint and the old lawn mower can be very instrumental in creating more beautiful surroundings.

ings... almost every home-owner will find there is something that he can do to create a bit more beauty for all to enjoy.

Two Killed On Duda Road

Loss of control of a car on a wet and slippery road resulted in the death of two Glades packing-house workers here Tuesday.

Dead are Frank Newkirk, Jr., 25, 254 S. W. 8th Street, Belle Glade operator of the car, and his passenger, Willie Lee Witchard, 26, 616 S. W. Ave. B, Place, Belle Glade.

The diesel tank fell on the car, crushing it and the men in it. The men were pinned in the wreckage for two hours until they were freed. No fire resulted from the crash, although a fire engine from the Everglades Fire Control District stood by in the event the diesel fuel was ignited while efforts were made to move the tank off the car.

Both men were dead when removed from the car, and were immediately taken to the Taylor Funeral Home.

That's Growth! 10% In A Year

A measure of the growth of the Belle Glade-Pahokee area and surrounding communities is the increase in the number of telephone directories being distributed this week to local subscribers.

Editorials

Holy Week, commemorating Christ's passion and death, begins with the Second Sunday of the Passion, popularly known as Palm Sunday. It marks the triumphal entry of Christ into Jerusalem the Sunday before his death there, and ends with midnight HOLY SATURDAY, the commemoration of his resurrection.

This week immediately preceding Easter is the culmination of Lent, 40 days of prayer and fasting recalling the like period Christ fasted in the desert before beginning his public ministry.

Palm Sunday this year falls on April 3. Since Easter varies each year — it is the first Sunday after the first full moon of the vernal equinox — Palm Sunday may occur as early as March 15 and as late as April 18.

Holy Week is the most solemn period in the church year. Palm

Sunday and Holy Thursday, Good Friday and Holy Saturday each has its own significance and observance:

PALM SUNDAY is the occasion of the solemn blessing of palms signifying the branches carried by Christ's followers when they welcomed him into the Holy City the week of his death.

HOLY THURSDAY is also called "Maundy Thursday," a name derived from the word "mandatum" — "commandment" — after Christ's words at the Last Supper: "A new commandment I give to you, that you love one another..." (John 13:34)

GOOD FRIDAY is observed as the saddest day of the church year — the day of funeral mourning for the death of the Savior.

HOLY SATURDAY the commemoration of Christ's sojourn in the tomb.

Uncle Dan From Doolie Says:

DEAR MISTER EDITOR:

Ed Doolie was telling the fellers at the country store Saturday night he had done lost his cotton pickin' mind and was ready for the man in the white suit to come and get him.

First off, he reported he had saw a piece in the papers where the U.S. Department of Agriculture was spending \$100,000 on a movie film to be showed all over Europe to encourage them folks to smoke more American cigarettes. They claimed they was doing this on account of wanting to help the American tobacco growers.

And in the very same paper, reported Ed, he had saw a piece where the U.S. Public Health Service was spending a million dollars on a campaign in California trying to discourage folks in that area from smoking cigarettes.

The feller that runs the store butted in and allowed as how he was running the country any how, had ought to rule ever Government agency in Washington non compus mentus. On account of his old lady being a school teacher he throws in them \$20 words over once in a while to impress the fellers. But they got the message and was agreed 100 per cent.

Zeke Grubb, that has got a grandson working in the Navy Department, said they got a new system for keeping records where his grandson works. The boss keeps a empty jug on the shelf for ever worker, and ever

time a worker makes a mistake or does the thing wrong, the boss drops a bean in the jug. At the end of the week the boss counts the beans and can tell which feller was making the most mistakes.

Clem Webster was of the opinion this could git to be a pretty complicated system. For in, said Clem, suppose one worker was holding a rafter while another worker was driving the nail. If he didn't hit the nail and claimed the other feller hit the rafter, how, would git the bean?

Josh Clodwoper allowed 20 how it could cause a bean shortage and might start a revolution. Josh said he was reading where Government workers operated under very particular rules. For instance, plumbers working on a history building was divided up by floors. A feller that worked on the fifth floor couldn't hit a lick on the fourth floor. Electricians that worked on the ground couldn't climb a pole or git up on a ladder. If a off-the-ground feller was on a ladder holding a light bulb while two ground workers was turning the ladder round and round to screw in the bulb and it wouldn't fit, who would git the bean, the ground crew or the ladder man?

I tell you, Mister Editor, the fellers at the store Saturday night was mighty shook up and could catch this non compus mentus business any day now.

Yours truly,
Uncle Dan

Mexican Competition Serious: "The Farm Front"

By Doyle Conner
Commissioner of Agriculture

"Probably Mexico's bright test success," according to a business journal, "has been in strawberries, both fresh and frozen."

Until labor problems began to discourage producers, the Florida strawberry industry has been making a strong surge. But Mexico's berry crop is crowding into the winter markets heretofore held exclusively by our state, with production 10 times as great in that country than it was just seven years ago!

Florida has boasted of being the "nation's winter salad bowl," but customers in the United States are beginning to buy more and more of their fresh winter vegetables from the neighboring country with a climate similar to ours.

Mexico's biggest crop for exporting is tomatoes, which also happens to constitute Florida's leading vegetable crop. The competition here is stiffening with Mexican production nearly four times as great as it was seven years ago.

Other major crops in which Florida is experiencing serious competition already are cucumbers, peppers and watermelons.

Besides a Florida-like variety of soils and excellent winter climate, Mexico has a few other things going for it, as the business magazine points out: —A plentiful supply of low-cost labor, sharply accentuated by former Mexican bracero farm hands, who no longer are allowed to migrate to the U. S. for the harvest.

A variety of crops that ripen long before most — and at least as early as Florida's — do in the United States.

It's time to take our competition seriously. Our new competitors are in the field. Production of foods has gone up by leaps and bounds in Mexico in recent years, and serious inroads now are being made into markets that used to "belong" to Florida.

California already is feeling the economic pinch of Mexico's rising productivity and increasing food exports into the United States. The fact is well documented in national news and trade magazines.

Mexico's fruit and vegetable shipments jumped another 10 percent in 1965 over the previous year. The shipped volume is as great as 10 years ago.

Almost 90 percent of our

Good Neighbor's whopping \$400 million in farm exports last year were in the United States.

BOY SCOUT ACTIVITIES

Clearing Campsite In Wilderness Experienced By Local Boy Scouts

Belle Glade was represented at the Gulf Stream Council Camporee at Camp Small on the Inland Waterway, South of Jupiter, Friday, Saturday and Sunday, by Boy Scout Troops 622 and 601.

There were 55 units, approximately 1,000 boys and adults attending from the entire Council area, Boca Raton to Vero Beach to Clewiston.

The camping area was in dense Australian pine, where it was necessary to clear spaces for tents, fires and etc. This outing gave the boys an opportunity not generally available these days to cut and clear an area and engineer a new campsite in what amounted to a wilderness.

Troop 622 planned its menus so as not to need refrigeration, and everything for the trip was packed in the camping area from the parking lot by the boys in one trip.

A swimming session was enjoyed with Troop 601. Scoutmaster, Billy Deen, as life guard. There was also considerable hiking around the area, exploring and nature observation.

Boys attending in Troop 622 were Billy Norris, SPL, John Kidder, PL, Wayne High, Buddy Bair, Harold

Troop 601 Attends Camporee

Last Friday evening 25 members of the Belle Glade Scout Troop 601, sponsored by the Episcopal Church, left for Camp Small for the annual Gulf Stream Council Camporee. All scout troops of the Council were in attendance.

The Camporee site was on an undeveloped section of the Camp Small tract, near Jupiter on the Intercoastal Waterway, and the boys spent much of their time in clearing and developing the camp area, which was largely covered with Australian Pines. Several camp-craft skills were

Kill this pellitory weed in sugar cane. Use Atrazine. Here's how:

When you see pellitory weed starting to grow, apply Atrazine 80W herbicide, plus a little surfactant. You'll clean out infestations of this winter annual fast and effectively without hurting cane.

Atrazine is safe to sugar cane. It will not injure your crop when you apply it as directed on the label. And since it's non-volatile, there's no danger of drift to adjacent, sensitive crops.

That's because Atrazine prevents

pellitory from interfering with sugar cane tillering. Also, Atrazine helps make soil moisture and nutrients available for your cane, and not for pellitory weed.

So plan now to grow the maximum tonnage of sugar cane from each acre you plant this season. Just use Atrazine to control pellitory weed this winter.

"The Legionnaires have made many repairs recently and Auxiliary members are eager to help any and every way they can too," she said. Plans for the sale were completed at a called meeting Monday night. Vice-president, Mrs. Bo Austin was named to spearhead the drive. Expected to be lending a hand are the organization's other officers, Secretary Winnie Plank, Historian Ann Peacock, Chaplain Verda Higginbotham; Sergeant-at-Arms Majorie Henderson and Betty Lou Boyer, as well as many of the members.

First Church Of Christ Scientist

The ministry of Christ Jesus, his crucifixion according to St. Luke, and the resurrection account from John, form the basis for this Sunday's Bible Lesson at Christian Science church services.

Responsive Reading from Isaiah will include this verse: "Of you that are of a fearful heart, be strong fear not: behold, your God will come with vengeance, even God with a recompense, he will come and save you."

Passages to be read from the Christian Science textbook "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include these lines:

"There were rock-ribbed walls in the way, and a great stone must be rolled from the cave's mouth; but Jesus vanquished every material obstacle, overcame every law of matter, and stepped forth from his gloomy resting-place, crowned with the glory of a sublime success, an everlasting victory... He proved Life to be deathless and Love to be the master of hate."

Subject of the Lesson: Sermon: "Are Sin, Disease, and Death Real?"

lay chairman and Mrs. Heleene Yoshio, Miami Springs women's chairman are coordinating the laymen's efforts in the Presbytery-wide campaign.

The Camp-Conference and Retreat Center borders state road 833, twenty miles east of Immokalee.

Triumph Comes After Tragedy

By Lewis Llewellyn
What appeared at the time to be the greatest tragedy in the history of the human was quickly converted into the greatest triumph. Though this happened many years ago, the work has never been the same since.

The tragedy occurred when wicked men succeeded in having an innocent man put to death on trumped-up charges.

ULTIMATE IN JUSTICE
The brutal killing of this man was the ultimate in injustice.

His hands had given sight to the blind and hearing to the deaf. They had lifted the sick and despairing to health and hope.

These hands were cruelly nailed to the arms of a cross.

His lips had told many the way to life. They had not only stilled the storm on the raging sea, but had also spoken peace and comfort to many a sin-sick soul.

But, as He hung on the cross, these lips were parched and swollen as He said, "I thirst." They offered Him vinegar and gall to drink.

After six hours on the cross, he died.

This was the tragedy—the innocent one suffering at the hands of the guilty.

THEN CAME TRIUMPH
—on the morning of the "third day."

Conquering death and turning defeat into victory, He arose and showed Himself alive to His 12 disciples and more than 500 others, over a period of 40 days, before ascending into heaven.

—And His power to save. They gave their lives to the preaching of this "good news."

Now—the Bible tells us "We have a great High Priest, that is passed into the heavens, Jesus, the Son of God."

Our Lord invites us to come to Him for mercy, forgiveness, and cleansing.

"God forbid that I should glory save in the cross of our Lord Jesus Christ."

Galatians 6:14

Do you, perhaps, know someone who, in words or in attitude, says to the world, "Look at the sacrifices I make to be a good Christian. I am fair in my business dealings; I am considerate of my family and friends; I help those who are in need; I think of others before I think of myself..."?

It would be more appropriate to say, "Look, how little I am able to do for Christ in return for the humiliation, the shame and suffering, and the painful death upon the Cross."

Maggie's Column

Dear Maggie,

I know from experience that friends are wonderful to have. I seem to have trouble making and keeping friends. I am not exactly a friend, but I would like to know how I can become a friendlier.

Almost Friendless

Dear Almost Friendless,

If you have a pleasing personality, you shouldn't have any trouble making friends. Here are a few tips to help you along the way:

- (1) Never try to be someone you aren't.
- (2) Stay away from the wrong type of people.
- (3) Don't be a gossip.
- (4) Be honest.

But most of all be YOURSELF.

Maggie

Dear Maggie,

Because of the fact that I don't use profane language, my friends seem to think that they can bully or abuse me. What can I do?

Abused

Dear Abused,

I suggest that you stay away from these friends.

Maggie

Intramural Sports

On Tuesday, March 29, 1986 an intramural basketball game was held for the Senior High department.

The first game was between the Senior High girls of 12-3 and 10-5. The game was an over whelming victory for 10-5 with the final score being 10-1.

The high point player for 10-5 was Ruby Henderson.

The second game was between the winners and 10-2. This game proved to be an exciting one with plenty of action because both teams had to challenge each other for the winning title.

The winners of the first game lost to their challengers with a defeating score of 8-1. The high point player was Shirley Vereen.

The Seniors boys of 12-1 defeated the Junior boys of 11-1 with a score of 13-8.

This game was very fast with plenty of action, and the crowd went wild with enthusiasm.

During the game it seemed as if the Juniors were going to overpower the Seniors because of Joe Sheeley's "Do-It-Yourself Jump Shots."

But with the Seniors pride and joy (Bill Jones), they couldn't be stopped. The high point man of the game was Bill Jones with 8 points.

The second game was between 10-2 and 10-5 boys. The boys of 10-2 won by a score of 10-8.

The teams remained tied throughout the game, with the scores being 8-8. With only 8 seconds left in the game John Holman made the last point placing 10-2 in the lead with a score of 10-8.

The Daily Round

Patience Strong

It is in the daily round—opportunity is found—to grace the will and train the mind, to be patient calm and kind.

In the tasks that we are set—there's a challenge to be met—learning how to do with grace—what is dull and commonplace.

Character is marred or made—where the diurnal part is played. In work that's well or truly done—more points are lost or won.

The circle of the daily round—is the soul's real battleground—where life puts all things to the test—bringing out what's worst or best.

Book Of The Week

Try Giving Yourself Away—Dana, David.

This particular book is a little different from our usual ones in that it is highly recommended for enrichment reading. The main character in the novel is Mr. Dunn who has just decided to cover a new hobby.

The new hobby, as you have probably guessed by now, is giving yourself away.

While riding a train one day, Mr. Dunn began to meditate on the problems of the world and suddenly decided that most people were always trying to get something and offer nothing in return.

It was at this particular moment that he decided to start giving himself away. For example, if you see a good short story in a magazine, write the publishers and tell them that you would like to commend the writer for writing such an interesting story. Let them know that you liked it. In giving yourself away, it does not necessarily mean money, but it means helping people in any way that you possibly can. Sometimes only a smile or a nice comment is only necessary to start their day off right.

Cheshire Farms switches to Electric Irrigation Pumps

Cheshire Farms in Deerfield Beach, Florida, recently changed from fuel-driven irrigation pumps to electric.

Says Russell M. Cheshire: "Our experience shows that the electric system is the easiest, most trouble-free, and convenient system we have had the pleasure of using. In addition, we were pleasantly surprised at the economical operation of our pumps."

"Our practice is to flood our 500 acres with water to one foot in depth for two months to control nematodes," declares Mr. Cheshire. "The flooding this year—the first time with electric driven pumps—was done faster and with a third less running time than in previous years."

Electric-powered irrigation is a profit-making, labor-saving production tool. Connect a dependable electric motor to your seepage or irrigation pumps. Easily controlled with a time clock or float switch.

Art News

The fashion designing class has been drawing furniture and kitchenware into design of fashion figures.

The reason for this change was to give the student more practice in using wash, the gray tones used in painting fashion figures.

After finishing with sculpture, the Commercial Art classes under Mr. Garrett, are making rugs and drawing fashion designs.

Foreverglades Mausoleum Gardens

Airport Road — Belle Glade

The most beautiful and ONLY garden crypt cemetery in this entire Glades area cordially invites you to visit these most sacred grounds with above-earth entombment in clean, dry and ventilated crypts. This shrine of beauty is dedicated to the families who care for the best, at very little more total cost than underground burial, with an adequate perpetual care trust fund to guarantee continued maintenance forever. Convenient terms of small monthly payments are easily arranged for those families with even the smallest of incomes. For the purpose of suggestions to be used in our future public relations program, we seek your help, but are willing to reward you for your time involved in writing us.

We will award, absolutely free:

One (1) adult crypt space — or — \$250.00 CASH to the person sending us the most original and practical suggestions in answer to: "Why is above ground burial preferred to underground Burial?" There shall also be an award of \$50.00 allowance on any pre-need — pre-construction garden crypt to those persons we choose, who take their time to write us and make suggestions that we use in the future. The sole judge of these letters shall be the Newhart Sales Inc., and all letters must be postmarked prior to April 20, 1966. The person sending the most original letter will be announced in this paper on July 21, 1966 and shall receive one of the above awards. Write immediately as all letters must be postmarked before April 20, 1966, and in case of ties, the earliest postmark will be chosen. Send all letters to:

Success can be rewarding.
In some cases, luck may be
a factor but, as a general
rule, initiative, knowledge,
hard work and stick-to-it de-
termination are pretty im-
portant.
The successful local mer-
chant, for example, has built
his business through a con-
stant effort to meet a par-
ticular need within the com-
munity on a continuing basis.
He knows he must be alert
to the changing needs of
his customers, to technical
changes relative to the prod-
ucts or services that he sells.
He knows that he must pro-
vide full service and full sat-
isfaction today in order to
merit more business tomor-
row.
Whatever your needs, be
knowledgeable. Consult the
tradesman, the professional
repair or fix-it expert, or the
salesman who has, through
proven ability, established a
place for himself in the local
business community.
